

Designed specifically for our fold up trestle tables, our Branded Fitted Table Cloth provides a clean, professional finish for any application where a table is required.

Our Branded Fitted Table Cloths are available as Full Fitted or Arch Open Back options.

Both table cloth options are printed on 210gsm Polytwill fabric.

The Full Fitted Table Cloth has a zipped opening on 2 sides for easy application and removal. The Arch Open Back version is an easy slip on & off application to the table. Using a non-stretch fabric with our custom designed template avoids distortion of logos and graphics that you find with stretch fabrics, commonly used for this application.
